SUMMARY

I am Joy Karmakar, a passionate web developer with a strong foundation in frontend technologies. My experience includes developing responsive websites that enhance user engagement and improve site traffic. I thrive on collaborating with teams to create functional and visually appealing web applications and am committed to continuous learning and professional growth. My skills span across frameworks and languages, emphasizing quality and performance

EXPERIENCE

Web Developer

Skkyee   📅 01/2024 - 01/2025   📍 Remote

Web development company specializing in responsive design and user experience

- Developed a responsive and visually appealing website for Alien Engineered Products, showcasing products and services
- Optimized website performance and ensured cross-browser compatibility, resulting in a 65% increase in site traffic
- Enhanced SEO strategies and ensured the site was mobile-friendly, improving user engagement and search rankings
- Built a responsive and user-centric website for SKF Elixer, highlighting products and services, for animation used Lottie and GSAP
- Improved site performance and ensured seamless cross-browser functionality, leading to a 30% boost in traffic
- Focused on mobile optimization for a smooth and engaging experience across devices

Intern

Acceleratron   📅 12/2023 - 01/2024   📍 Remote

Internship at a technology company focused on innovative solutions

- Developed a cutting-edge and responsive website for Zyntech, highlighting digital solutions such as web and mobile applications, cloud services, and DevOps
- Focused on optimizing performance, cross-browser functionality, and mobile responsiveness, leading to a 40% boost in site traffic
- The website reflects Zyntech's expertise in delivering innovative technology solutions across various domains

Frontend Developer

Logic 'n' Color   📅 06/2023 - 11/2023   📍 Remote

Remote company specializing in design and development

- Developed and maintained responsive UI components using HTML, CSS, JavaScript, and Less.js
- Focused on creating intuitive, user-centric designs with an emphasis on usability
- Collaborated with backend developers to integrate frontend components with server-side logic
- Worked closely with the design team to translate wireframes into functional user interfaces
- Delivered consistent visual experiences across various screen sizes

EDUCATION

Bachelor of Commerce

University of North Bengal

📅 01/2019 - 01/2022   📍 Coochbehar, West Bengal
